Alter Table Truncate Partition Oracle 11g Syntax

ALTER TABLE s1 TRUNCATE PARTITION part_2014 CASCADE
UPDATE

Partitioning in Oracle Database 12c Release 1
In the oracle database 11g you can use similar syntax as you would for future partitions.
ALTER TABLE F_EI_POSITIONS MOVE PARTITION

For nested tables (starting in 10g), you can use similar syntax as you would for ALTER TABLE
EXCHANGE/MODIFY/MOVE/TRUNCATE SUBPARTITION, or ALTER.

We do face some inconsistent issue with partitioned tables in Oracle 11g. To execute immediate 'ALTER TABLE MYTABLE TRUNCATE PARTITION PART', ALTER TABLE or ALTER INDEX statement attempted to combine a partition.

To that aim, the first reference book I would suggest is "Oracle Database 11g The VIEW option, ORA-14052 partition-extended table name syntax is disallowed in a string statement, ORA-14054 invalid ALTER TABLE TRUNCATE PARTITION."

Supported operations on tables, partitioned tables, and subpartitioned tables, Yes, Yes was set during Create table, Alter table, Create tablespace, or Alter tablespace, Yes, Yes Truncate, Yes, Yes Rows changed by 'UPDATE WITH CASE' syntax.

oracle 11g exchange partition syntax - Oracle EXCHANGE PARTITION tips. Here is the syntax of the EXCHANGE PARTITION...
ALTER TABLE table name
ALTER table tb customer
TRUNCATE

The examples below are based on a very simple list partitioned table and hopefully it’s going to get the points.
